

APPENDIX. NATIVE SCHOOLS: TEACHERS' LOG BOOKS

Report prepared by Ian Brailsford to assist David Williams in preparation of his report 'Crown Policy Affecting Maori knowledge Systems and Cultural Practices' for the Waitangi Tribunal's Wai 262 inquiry, July–September 2000

Introduction and Methodology

I was commissioned in July 2000 to undertake research at the National Archives, Auckland examining teachers' 'log books' from Native Schools for the period up to 1930. I was specifically asked to look for examples of pupils being punished for speaking Te Reo Maori during school hours. J M Barrington completed a similar project for the post-1930 period in an article for the *New Zealand Journal of Educational Studies* in 1985.¹

The log books are hand-written note books completed by the head teacher detailing events in the school. National Archives does not allow the photocopying of the logs. Thus I was obliged to make direct notes from the books. In total there were 46 schools which had log books for the period prior to 1930. Since I had a few days' research time available after completing the log books for the period up to 1930 I also read the log books for a further ten schools from the 1930s. For several schools there was more than one book. In total over 80 log books were consulted.

There are significant gaps in the sequence of log books for each school. Barrington also faced this predicament.² Over several decades of a school's life there may well be only one log book which covers a period of two or three years. As an example, there is a log book for Te Pupuke Native School for 1902 and 1903 but the next surviving log book for this school commences in 1928. The 'missing' log books are probably due to them not being carefully stored away and being lost in the process or, perhaps, teachers either not keeping a log or taking it with them when they left the school in question.³ However, I have read all the log books available to researchers held at the Auckland branch of National Archives up to and including 1940.

It is certain that there are log books which have been consulted by researchers which are not held by National Archives. For example, from the footnotes in the article by Barrington it is evident that he read log books

derived from visits to former Native Schools in the Hawke's Bay, South Auckland and Wanganui Education Board areas.⁴ Thus Barrington cites log books for schools⁵ which are not held by National Archives.⁶ Two schools cited by Barrington, Tikitiki and Kaikohe, do have log books in the National Archives, but for different time periods to those referred to in his article dealing with the 1930s. Thus my research has dealt with all the centrally administered log books but not all those potentially in circulation, for example, those held in private or other public collections.

It needs also to be noted that some teachers were more diligent in keeping log books than others. Inspectors would leave notes in the logs asking the teachers to give a more detailed record of school events. Newly arrived teachers on occasion complained that they could not find log books or timetables left by the previous teacher. Several teachers re-appear in different schools at different times. For example, Hugh Goldsburg and his wife taught at Te Pupuke and Omaio Native Schools in the late 1920s and 1930s and kept detailed log books.

Each log book was read and verbatim notes taken for instances of teachers recording punishments administered to pupils (irrespective of the 'offence' cited) and other comments about discipline within the school. On the advice of David Williams I also recorded other comments in the books of general interest, such as celebrations of British Imperialism, encouraging English language usage and perspectives on Maori culture in general from the teachers' notes.

The direct quotations in this report are in italics. I have endeavoured to replicate the exact format from the original documents. Where the handwriting was difficult to decipher (usually nouns) I have highlighted this issue for the specific log book. For each school's log book I have recorded the National Archives' reference code to assist with any subsequent searches of the materials.

I have arranged the schools' log books in alphabetical order and subdivided them into three parts. Section one contains log books for the period up to and including 1903 and section two the log books for the period from 1904 to 1930 reflecting the end of James Pope's tenure as Chief Inspector for Native Schools by William Bird in 1904.⁷ Section three contains log books from the 1930s.

Instructions to teachers regarding entries in log books

The text below reproduces the typed instructions pasted inside the 'standard issue' log books issued in the 1930s:

EDUCATION DEPARTMENT OF NEW ZEALAND

LOG-BOOK

DIRECTIONS

1. IT is an historical school record to be kept as provided for in the Regulations for Native Schools.
2. Entries may be made by the Head Teacher or by the officials of the Education Department.
3. Entries should specify changes in organization, receipt of Inspectors' reports, absence of any member of the staff, closing the school, repairs effected or urgently needed, apparatus supplied, special cases of illness, bad weather, severe punishment, and any facts affecting the school and its efficiency.
4. Should it be found necessary to enter specific statements reflecting on the work or character of any member of staff, the entry should be initialled by the member of the staff concerned. No reflections of a general character should be made.
5. No entry once made is to be removed or altered otherwise than by a subsequent statement.
6. The Log-Book is not to be removed from the school without the permission of the Department.

Summary of findings

There was only one reference to punishment in the log books for pupils using Maori without permission. However, the teacher recorded that pupils were given detention and written exercises during playtime for speaking Maori rather than corporal punishment.⁸

I found significant variations in the frequency of recorded corporal punishments in different schools. Some log books contained no references to punishments at all, although these were the exception. Certain teachers made direct comments about the absence of punishments due to

8. Mr Hailey, Te Kaha Native School,

the good behaviour of the pupils or their inclination to avoid corporal punishments by using other forms of discipline. At the other end of the scale, some teachers recorded punishments on a weekly basis, and, during certain periods, daily. The general pattern was for teachers to resort to corporal punishment once or twice per month. The entries are normally quite specific as to the cause of the punishment, to whom it was delivered to and how many 'strokes' were given.

I have noted several hundred specific references to corporal punishments delivered to named pupils. The majority of these punishments were for specific 'misdemeanours'. For example, pupils received punishments for writing obscene words, hitting other pupils, throwing stones, cheating, theft, truant, bad language, smoking, vandalism, chewing gum, whistling etc. Teachers, albeit less frequently, also made mention of pupils being punished for vaguer 'offences', such as being disobedient, sulky, impudent, insubordination, cheekiness, trifling, impertinence and defiance.

There are several examples of pupils receiving corporal punishment for 'talking' or 'whispering' during class-time. Yet it is unclear whether or not pupils were punished for interrupting the lesson by talking as distinct from talking in Maori. I have noted several comments by teachers where the use of Maori in various contexts (such as from school committee members and visits by guest Maori visitors) in the school is explicitly sanctioned. One revealing comment came from the teacher at Te Terepehi Native School in 1902 who was encouraging a policy of English only to be spoken in the school grounds but acknowledged this was 'not a rule that can be enforced'.⁹

Due to the conspicuous absence of pupils being punished for speaking Maori it is impossible to determine any regional variations nor trace any change in policy over time. The log books for the 1920s and early 1930s tend to be less detailed (in a narrative or descriptive sense) than ones from the 1890s and early 1900s. For whatever reason, there were a concentration of log books for the late 1890s and first years of the 1900s and for the 1920s but a paucity for the decade and a half from approximately 1905 to 1920.

Corporal punishment was administered to Clara Hood for writing an obscene word on the school porch. The word written concerning the act of co-ition.

Kaeo 1897–1901 (BAAA 1003/1e)

The Committee & people met at the school today. Their speeches were mostly valedictory. They spoke about some bad boys, and asked me not to chastise them too severely. I replied that I had not known any bad children, and consequently had never to chastise severely.

M J Tennant, 9 March 1897

I had to administer corporal punishment to Charles Bramley today. He gave Hata Heta a cruel blow, raising a great bump on the elbow. He had given him but little provocation.

M J Tennant, 27 October 1898

I suggest the following points for consideration:

- (a) Language concerns the ear and the tongue before the eye & the hand.*
- (b) After each lesson it should be ascertained that every child in the class has profited from the lesson.*
- (c) Failure in other subjects is frequently due to want of confidence in English. To secure confidence & practise it is well to accustom the children to answer all questions by using complete English sentences.*

Harry Kirk (inspector) to Tennant, 1 January 1899

No attendance. Quite early this morning the children came bringing flags, as they expected a holiday when the news came of the relief of Mafeking. They were not disappointed. We fired the flags, rang all the bells, sang songs & hussahed. Then the bigger children went to Kaeo to see the rejoicing there. They told me today that drinking was the chief amusement going on at Kaeo.

MJ Tennant, 21 May 1900

Kaikohe 1898–1901 (BAAA 1884/1e)

The first week of school is over. I am very much disappointed in the school as far as behaviour and work of the children is concerned. Personally they are bright and sharp, but quite unlike the well behaved and respectful Maori children I have been accustomed to... The school is a pandemonium; it is impossible to teach under these conditions and I shall have to depart from my usual practice and resort to corporal punishment.

B Hawkins, 5 February 1898

After a large amount of forbearance I have to resort to the 'stick' in earnest. Fred Rameka and Richard Mau on being 'stood out' for talking, played and laughed and generally made a 'good joke' of it. I gave them each 2 sharp strokes...

B Hawkins, 18 February 1898

I have to record another case of bad behaviour on the part of some of the boys.

Mrs Hawkins was giving the girls a sewing lesson in the class room when the PP boys, who had been dismissed, headed by a SIV boy (Eric Akutata) who had been allowed to 'go out', battered at the door with a piece of wood and threw stones at it. I went out but could make nothing of it all the boys emphatically denying having done anything. I blamed Eric as the oldest for not having stopped the riot and suspended him until the matter had been brought before the Committee. After school I went to see Rameka (one of the Committee) the chairman being away. He enquired into the matter and told me that the children said Eric was to blame for the whole affair and endorsed my action of suspending him. The matter will of course be investigated by the Committee.

B Hawkins, 21 March 1898

I am however glad to be able to report that my efforts re discipline have, through the mild application of the 'rod' assisted by the counter attractions of a football and marbles, been rewarded. There is a decided improvement although much more is to be desired, and I have not had to 'thrash' a single boy.

B Hawkins, 31 March 1898

William Tuhi received corporal punishment for kicking one of the small girls...

(Note – entries written retrospectively by teacher Agnes L Grant and not dated. I have put relevant dates in parenthesis.)

For the first three weeks (June 1898) I was not obliged to have recourse to any corporal punishment though I received a letter from the chairman advising me to use it in the case of his own little son. However as the children have never known what it was to obey I was forced to make an example for disobedience of Taurerewa, one of the elder boys. Subsequently the eldest of the girls was very insubordinate & as detention seemed to have no effect I was obliged to cane her.

Agnes Grant, c July 1898

On Monday 5th August (1898) my senior boy reported that he had to complain of the conversation of the children on the playground & asked me if I would ask the chairman of the committee Matenga Keepa to speak to them on the subject. Matenga Keepa had kindly come down with the children on purpose to do so, if I wished. I was thankful for this help in checking an evil which with my slight knowledge of Maori was beyond my own power to control & gave the chairman an opportunity to speak to the school assembled before 10 o'clock.

Agnes Grant, c August 1898

On August 18th (1898) my brother spoke to one of the bigger boys Tame about some misbehaviour on the playground. The boy got sulky at this & went home. However he came back the next day. We have been told that he ran away from Putiki school. We decided not to punish ourselves but strongly recommended the committee to do so at home. They did not however although they threatened him with punishment.

Agnes Grant, c August 1898

On Friday the 14th of April (1899) Whatarangi one of the younger boys was caned for disobedience & untruthfulness.

Agnes Grant, c April 1899

On (blank) of April (1899) Reweti one of the youngest boys was caned for disobedience & for telling a lie.

Agnes Grant, c April 1899

The two canings entered last had considerable effect in enforcing truthfulness, yet this week one little girl was discovered to have told a lie & was afterwards very disobedient. She seemed to be intentionally courting a caning & I hope will improve in consequence of having had it.

Agnes Grant, 9 June 1899

In my opinion the cane should never be used except under very exceptional circumstances for older children who have sufficient sense & self respect to have their reason appealed to. In the case of younger, however, it seems to me necessary as a last appeal, when keeping in & talking to them fails to bring them to order. I therefore use it in cases of flagrant insubordination; but more usually in cases of constant troublesomeness, where other punishments have evidently failed. I cane severely whenever I have to at all, in order to make the child wish to avoid it in future.

Agnes Grant, c July 1899

On August 31st (1899) I had to cane Louise Stubbins a little girl who had not been long at school & deliberately refused to do what she was told.

On Oct the 26th (1899) I had to cane Taupiri again for disobedience. I think she was caned too lightly the first time & wished to be punished again. She has a very difficult disposition & I have tried both kindness & severity so far with little success.

On Sept 1st (1899) Waru was caned for disobedience & telling a lie. He has improved very much since.

Te Pohi a new boy came to school. He was inclined to be impudent & one day I told him to go into the cupboard for doing what he had been told not to do. He was sulky & refused so obstinately that it was necessary to cane him. Since then on Nov 4th (1899) Paora was caned for disobedience.

Agnes Grant, c November 1899

On 5th April (1900) I was obliged to cane Taupiri again for deliberate disobedience & sulkiness. On April 16th (1900) Riwaru a very small boy who had only been a short time at school refused to go into the cupboard when I told him to go. He had no idea of obedience in school & I thought the stick would be less lightly to frighten him than the cupboard & so gave it instead – It apparently agreed with him well for he has been much more obedient since.

Agnes Grant, c April 1900

April 27th (1900). Having been a good deal troubled lately by a want of promptitude in obedience & by speeches which I strongly suspect the children understand are 'cheeky' I made an example of Waru. He had earned a 'keep in' for these faults every day this week.

Agnes Grant, c April 1900

On June 1st (1900) we received news of the surrender of Pretoria & after school was over the children gave three very hearty cheers for Lord Roberts' victory & then had games and cocoanut ice all round. There was great excitement over the news in Karioi & flags flying.

Agnes Grant, c June 1900

On Wednesday 20th June (1900) Waru was caned for disobedience.

Agnes Grant, c June 1900

I have learnt by bitter experience in dealing with adult Maoris that I am doing a child an injustice if I let it grow up with this habit of sulking.

Agnes Grant, c June 1900

On Wednesday 4th July (1900) I caned Taupiri for sulking & she has since been very amiable.

On Thursday 5th July (1900) Hiriti earned six bad marks for disobedience and was caned.

On Friday 6th July (1900) I had to cane two children for sulks, Hinga and Louise Stubbins.

Agnes Grant, c July 1900

On Thursday Sept 15th (1900) I caned Paora Matenga for sulks. I had been having a great deal of trouble with sulks, so I caned him in front of the

school in hopes the others would take a warning. It made a great impression & all the girls wept aloud in sympathy for him. I find sulks very difficult to deal with.

Agnes Grant, c September 1900

On Oct 25th (1900) I caned Louise Stubbins for sulks but I'm afraid it was not a very satisfactory caning because she has not been at all obedient since. I think I let her off too lightly.

Agnes Grant, October 1900

On Thursday Feb 7th (1901) Piki was caned for sulks & has been much better since.

On Feb 13th (1901) I caned Iwi for impudent & deliberate disobedience. ... On Feb 22nd (1901) I was obliged to cane Iwi again for insubordination. She has been better since.

Agnes Grant, c February 1901

On March 4th (1901) I caned Waru & on March 7th I caned Paora. These are two little boys who are full of mischief & inclined to be disobedient & sometimes they will not be contended until they earn a caning & then they feel quite happy and good.

Agnes Grant, c March 1901

On Wednesday July 10th (1901) I caned Piki for sulks.

Agnes Grant, c July 1901

On Thursday Oct 3rd (1901) I was obliged to cane Paora for sulks. I have tried every other remedy I could think of, but canings seems to be the only one best suited to his disposition.

Agnes Grant, c October 1901

On Oct 29th (1901) I was obliged to cane Taupiri for deliberate disobedience & sulks.

Agnes Grant, c October 1901

On Nov 12th (1901) Dr Pomare came to Karioi. He gave a health lecture & showed the Maoris a lot of diagrams. The children were intensely interested in what he told them & next day when they were early for school they found

a Physiology book under Jim Slewells desk & wanted me to explain to them all about the diagrams in it. I asked Doctor Pomare also to speak to the children at the beginning of afternoon school upon the simplest questions of health which affect their daily lives. He spoke to them in Maori both because he found it easier to do so when we were present & also because they would understand him more perfectly.

Agnes Grant, c November 1901

I must not forget to mention the large amount of help that I have received this year from the older & more responsible children. We have had three girls as monitors or 'sergeants' as we call them for the girls & three boys as sergeants for the boys. These 'sergeants' have been considered responsible for the conduct of the children in the playground & their duty has been to put down all objectionable conversation or behaviour. If a child will not listen to them they have to report to me & I strictly uphold their authority.

Agnes Grant, c December 1901

On Friday August 29th (1902) the children sang 'God save the King' to remind them that the Kings Coronation was to take place on Sat Aug 30th.

Agnes Grant, c August 1902

On July 18th (1902) I caned Arthur Slewell for cheekiness. This was the first caning I have found to be necessary since the Inspector's visit.

Agnes Grant, c August 1902

On Tuesday Oct 21st (1902) I caned Matauri for sulks.

Agnes Grant, c October 1902

In the case of the little girl who is partly a negress I have to my regret been obliged to make an entire exception to my usual methods of management. I have tried with this child special kindness, special rewards, speaking to her alone, laughing at her, putting her in the corner, giving her impositions, keeping her in till nearly dark, shutting her up alone, expelling her for a week & caning her, & the last seems to be the only thing which really appeals to her & makes her try to do better.

Agnes Grant, c December 1902

The chairman's complaint was that the stick had been too much used lately & used too severely. We produced both the strap & the cane & thoroughly discussed the matter in a friendly way. Both Matenga and Te Aonui preferred the cane to the strap & we decided that in future I should try if one hit was sufficient & only give more when it proved quite necessary. I explained to them that my reason for caning on the calf of the leg was that I had heard of the bones of the hand being injured by caning.

At the time of the discussion we fully realized that this matter lay outside the sphere of the School Committee but we wished to come to a good understanding with the parents in this matter. Since I first came up here I have had many requests from parents to cane their children, so this objection to it surprised me.

Agnes Grant, c March 1903

On Tuesday the 7th April (1903) I caned Elizabeth giving her one hit with the strap. She is a new child from a town school & was very disobedient. She has been much better ever since.

The following day I gave Waru one hit with the cane. He had been persistently disobedient about playing in school & has been much better since.

Agnes Grant, c April 1903

On Thursday May 14th (1903) I gave Paora one hit with the cane for being cheeky.

Agnes Grant, c May 1903

On Monday May 25th (1903) the children met as usual thinking they were going to have school. They came into school & after prayers I spoke to them about the Empire. They all knew it was Empire day. We then formed a line outside & sang 'Soldiers of the King' & saluted the flag & sang 'God save the King' in Maori. They gave three cheers for the King & then dispersed with great joy for the holiday.

Agnes Grant, c May 1903

After the Inspector's remarks upon talking I made up my mind to try if a single hit on the hand with a strap would stop it but a short experience proved to me that this was unsatisfactory for the children did not mind it.

Agnes Grant, c May 1903

On July 23rd (1903) I was obliged to give Pihopa 2 hits with the strap for cheating Miss McDonnell. I also had to give Ema the strap. Ema is the child with negro blood who has always been such a difficult child to manage.

Agnes Grant, c July 1903

On August 26th (1903) I was again obliged to give Ema the strap for giving way to her temper & answering me in an impudent manner in school. Piki also followed her example & was deliberately disobedient & required the strap. On Oct 7th Rupe had 2 hits with the strap for a bad action & the following day I was obliged to give Reuben 6 hits with the strap for insubordinate conduct.

Agnes Grant, c October 1903

On Oct 16th (1903) I was obliged to cane Waru for being cheeky to Miss McDonnell.

Agnes Grant, c October 1903

For the first two months we did not find it necessary to give any canings; but on Wednesday April 20th (1904) sterner measures became necessary. I had had much trouble with carelessness in pen & ink writing & Arthur & Waru were punished for this offence: the result was a marked improvement in their written work.

Agnes Grant, c April 1904

On Friday April 22nd (1904) we spent the whole morning over making a thorough enquiry into what we believed to be the evil which had been affecting the discipline & tone of the school – this evil was underhand smoking covered by lying.

Agnes Grant, c April 1904

Pupils Wiwi (15) and Piki (13) expelled for sinning at Piki's home under peculiarly repulsive circumstances in the presence of three other school children... The result of our investigation & discussion was that I decided that I had no alternative but to expel Piki and Wiwi. Before expelling Wiwi, at the request of his guardian, he received a severe caning for his truancy &

lying on the previous Thursday. These expulsions are the first I have ever had to make.

There is a decided improvement, but it is difficult to get the little ones to understand discipline.

D Hamilton, 5 July 1895

Punished Sam French (4 cuts in back) for scratching a desk with a piece of glass also 2 cuts his sister for doing same.

D Hamilton, 9 July 1895

Caned Tuokiake and Teaho Tehai for playing truant. 2 cuts each.

D Hamilton, 5 November 1895

Caned Darcy Hamilton and Frank Sumer (?) for making a noise.

D Hamilton, 2 April 1896

Caned Kareua Tamaki severely for stealing money from Take (?).

D Hamilton, 13 April 1896

Gave Sam French, Tuokiake and Toatana two cuts with cane for playing truant.

D Hamilton, 14 October 1898

I have punished 3 boys for playing truant. They went fishing. Their parents are away & there is really no one to compel them to attend.

D Hamilton, 29 November 1899

I had to punish Tom Ponui for playing truant on Friday afternoon. This is the third or fourth offence & I gave him 3 cuts with the stick.

D Hamilton, 13 August 1900

Gave Tommy Ponui and Wiri Tama 4 cuts of supplejack (?) for playing truant yesterday also Pene and Pukeko two cuts as they were led astray by the other boys.

D Hamilton, 5 December 1900

Gave Ernest Forbes a cut with stick for throwing a book about.

D Hamilton, 21 October 1901

Today I found that the younger children were not well up in God save the King so we devoted an hour in the morning to teaching them. I have arranged with Mr Crooks to have the coronation celebration at the Native School & am putting up a temporary flag staff.

D Hamilton, 4 August 1902

Gave Hone 5 on each hand with strap, for his absence yesterday.

W Leach, 31 August 1903

On Friday last I found that one of the ornamental ends of a map roller had been stolen (it had been stolen before & I had it returned). This morning I found that Hone Puwhau had given it to a Pakeha boy with directions not to let any of our children see it. I investigated the matter & found that the above was the true state of the matter. Hone at first utterly denied the charge but finally stated that he had 'found' it on the play-ground. I gave him 6 on each hand with strap for lying & stealing. He has a very bad character as being a thief.

W Leach, 14 September 1903

Awe, a very troublesome girl, has been giving impertinence to the Assistant – for this I gave her 1 on each hand with strap. She then raised her slate threatening to throw it at some of the children. I had much trouble in restraining her & finally had to give her a light tap on her wrist with the strap to compel her to lower the slate.

W Leach, 2 October 1903

For deliberate & persistent disobedience. 6 with strap. He is the biggest boy & usually good tempered & well behaved.

W Leach, 6 November 1903

Tati & Mau 2 each with strap for continuous & persistent talking in Assistants room. Several times have I had to remove these boys. They continually disturb the assistants class.

W Leach, 11 November 1903

The Assistant brought Tuekei to me for punishment for having struck one of her girls & severe blood in the face. He is one of the biggest boys in the school & in St.I. He is a thoroughly wild and undisciplined fellow. I proceeded to give him a good dozen with the strap but when I had given him only 4 the Assistant begged him off.

W Leach, 13 November 1903

Awe & Mihipr 2 each for perpetual talking (Assistants class).

W Leach, 13 November 1903

As a last resort I gave Pukeko 3 on each hand with strap for absolute & constant inattention just sits doing absolutely nothing. I have from time to time tried every way I could think of to make him work but without success.

W Leach, 16 November 1903

Boys striking girls is an offence that has given me much trouble here, for this offence I gave a small boy 1, with strap, on each hand. He not only struck the girl in school, but insisted that he had a right to do so.

W Leach, 17 November 1903

Hohe, 1, Mihi, 1, Awe 2 of the strap on their hands for being uncontrollable talkers in the Assistants room. Hone for playing truant 6 of strap – he has been frequently absent – his father called on me recently & told me that on those occasions the boy had been sent to school & requested that I should punish him whenever he absented himself.

W Leach, 19 November 1903

Another case of striking the girls. For this offence the Assistant brought Whare..(illegible) to me, but when I had given him 2 of the strap the Assist-

ant begged him off. I then told him to return to the Assistants room, but when leaving my room he howled at me that he 'would not come to school any more', & proceeded to take his cap & go home. I at once brought him back to my room & put him standing in a corner to 'cool down'.

W Leach, 26 November 1903

Received a complaint from Mrs Tonga concerning the conduct of Tueker towards one of her children on the playground. I investigated the matter & concluded that (were the culprit a European a sound flogging would be his deserts) as no one was hurt (I think it was only a Maori joke) & that as soon as Tueker understood what I was about, he told the truth, justice was satisfied by my giving him 4 of strap on his hands.

W Leach, 27 November 1903

In the classroom Tame 3 times struck Jack Coe for this I gave him 3 on each hand with strap.

W Leach, 1 December 1903

Tame 4 on each hand with strap – this time for unnecessary talking (see last entry). I would here remark that I have during my experience (22 1/2 years) among Maoris found that the nearer they are to a European settlement the more difficult are they to manage & more necessary to make them understand that there is corporal punishment which they will feel. I am personally opposed to, and thoroughly dislike, corporal punishment, but have had to use it at times. However when Europeans are not in the vicinity of a school I have usually found that very little of it would go a very long way & that firmness & kindness were most appreciated. Even where corporal punishment has had to be used I have always made it plain to the children that I did not like it, but that in justice it had to be, so in the long run I have always won them over to 'law and order'.

W Leach, 8 December 1903

Okoha 1900–1904 (BAAA 1003/2k)

Bertha Baigent, 31 July 1903

'Health for the Maori' presents a great difficulty to S IV. Unfortunately very corrupt Maori is spoken in this place, consequently a great deal of the book is unintelligible to them, although they are very interested in the English which they are reading with it. The Maori dictionary is brought to the rescue & with its help difficulties are removed.

Gave Rowney, W Waha & MA Murray a hand each for running away from school in the afternoon to eat peaches.

Teacher, 19 March 1890

M Whaurau, M Ridu, R Te Huhu, E Whaurau & R Te Hira ran away from school in the afternoon and stole some melons. Gave them a light hand. I think in a case of this kind such children ought to be properly warned.

Marella Rider for fighting in general, using bad language & tossing things about outside/inside was reprimanded. She asserts herself she was caned

The Committee wish only English to be spoken in school and playground.

Alexander Mackenzie, 1 July 1899

The Teacher (Mackenzie) also remarked that the children were slow to translate Maori, thinking that it was not English.

Hone Mare, School Chairman, 23 May 1901

The Children sang at the close of school God Save the King & three times marched past and saluted the Flag. Then three cheers were given for King Edward VII.

Alexander Mackenzie, 8 August 1902

Paparore 1900–1903 (BAAA 1003/30)

I have not yet recorded a case of corporal punishment. Nor have I yet to do so. I can easily conceive of a Maori school being carried on for years without punishment.

Edwin Greensmith, 7 May 1902

I should be glad to hear of any publication that would be of use in helping me surmount the difficulties in the way of teaching Maori children – especially in English.

Edwin Greensmith, 15 August 1902

Marsh Pene, a boy of 15, is becoming troublesome. As he is so much over school age, I shall, if he continues in his present irritating vein, recommend the committee to remove him.

To day being wet, I was obliged to leave the children in school. He took advantage of this to bully the smaller children, to use the window as a means of egress, and generally to demoralise the young ones.

He has an ardent disciple in Kete Hobson. The problem presented by these two boys is one which I shall have to solve. Good scholars, and obedient in school, they use, outside the school, some of the filthiest language they can pick up from the lowest class of white people.

Edwin Greensmith, 28 November 1902

I have never yet found it necessary to castigate any boy or girl in the school. By the time they understand why, and I think too, that they know their honour is concerned. I can always, when occasion requires it, command absolute silence for a lesson, and knowing this, I save any chafing by allowing a little latitude during exercises, that is;— any little humming during what should be silent work I do not arbitrarily repress.

The system of marks still works well: there is plenty of rivalry for top seats in our monthly changing of places.

Order slowly, very slowly improves, but it is still most fatiguing to maintain. The oldest habitues of the school who date from the foundation are the worst. So much time is wasted, and the energy that should go in teaching, goes to keep indifferent order among them, and in preventing one's own temper from escaping.

A Wilson, 23 April 1902

Peace declared. Heard bells & whistles in Huntly just as going into morning School. Told children that the war in Africa was over – that we had won.

A Wilson, 2 June 1902

Caned Powhiri for refusing to obey orders. I observe I am credited with caning for 'trifling' in last report. My words have always been 'persistent trifling', ie persisting in bad conduct although repeatedly told to desist – the punishment being for the persistence as being evidence of insubordination more than the conduct. I used the word 'trifling' because Mr Pope once told me it was an Inspectoral Convention for a large range of crimes, ranging from the nudge with when a neighbour's attention is solicited to a smack that may land hi in the neighbouring desk. In this particular case Powhiri took her neighbour's ruler, I caused it to be restored. Then she hit her (the neighbour (Maggie) is a much smaller child). I warned her to desist, but in a few minutes I detected her in the act of kicking her. I might call it bullying, but really the serious part in my eye is the defiance of authority.

A Wilson, 12 July 1902

Caned Powhiri Tarawhiti for truancy and falsehood.

A Wilson, 16 September 1902

Caned Ngaha Rotana for hitting his sister.

Had to cane Hana Rotana for refusing to work as a climax of great inattention and laziness.

A Wilson, 17 April 1903

Caned Ani Wiremu (1 stroke) disobedience.

A Wilson, 25 April 1903

Caned Powhiri Tatawhiti for defiant persistence in 'trifling'.

A Wilson, 8 May 1903

Caned Powhiri 1 stripe on hand hitting Malcolm in school (not by any means for the first time).

A Wilson, 21 May 1903

Had to cane Powhiri for defiant behaviour. In her subsequent lament she used bad language and vowed not to come to school next day nor all next week. Made her keep quiet & work.

A Wilson, 20 August 1903

Had to cane Te Oke for persistent 'telling'.

A Wilson, 1 September 1903

I had to cane four girls for standing in such a way that the wind blew their clothes over their heads during the dinner recess. Wilful and repeated, and a great joke until I came down on them.

A Wilson, 20 October 1903

Had to cane Powhiri Tatrwhiti for persistent ill-behaviour and finally refusing to work.

A Wilson, 26 February 1904

Had to cane Mary Karena for altering my marks on her slate with a view to gaining places in Dictation Class (3rd offence recently).

A Wilson, 24 August 1904

Had to cane Te Oke for persistent 'telling'; and, later on, she and Margery for doing wrong and concocting lies about it.

A Wilson, 10 October 1904

Had to cane Waru (largest boy) for persistent and rather defiant trifling. He only had one stripe on the hand at which he cried a great deal. When I wanted him to resume work after what I considered a sufficient interval, he 'hauled off' and 'offered' to throw a book at me. One more cut, with a command to return to his place in the line. Kept him there until he did a share of reading lesson.

A Wilson, 27 October 1904

Raorao 1898–1902 (BAAA 1003/51)

Eight children left for Mahaka village (2 miles distant) during dinner hour. No excuse given for going. After going a mile they returned. The Chairman came with them and asked me to punish them as a prevention for the future. I slapped each one. Two boys (the seniors) received two strokes of the cane each.

G H Lndon, 5 September 1898

I gave respectively 6, 3, & 2 strokes of a light switch to Mary Anne & Jack Ranga, Ramarie Wiremuu and Waiwera Ranga for absenting themselves from school yesterday when sent by their parents.

G H Lndon, 27 November 1898

Annoyed with two disobedient boys Jack Ranga & Ngatokorua after speaking to them and having a repetition of this noise I struck each with the cane across the right arm & should, one stroke each.

G H Lndon, 23 July 1902

For disobedience and sulk at English lesson this morning I gave a stroke of a cane across the legs to Mary Te Huia followed by two strokes each to Riaha & Sarah....

G H Lndon, 19 August 1902

I gave three strokes of the cane across the legs to Turuhe and Rui Kauhahi for disobedience idleness and sulks, besides keeping both in to finish their work (at 12 o'clock).

G H Lndon, 18 March 1903

I spoke to the parents re the conduct of 4 boys and 4 girls. I said a beating would I thought be serviceable – the fathers said give it to them. I gave Pita, Hotu & Toho three strokes of a cane each, besides telling the others how narrowly they escaped getting the same. Strange to say – those who were struck showed less temper than the others. Pita is not a sullen lad, he is just led away in a crowd.

G H Lndon, 25 March 1903

I have with sorrow to record that one of the school girls (Mary Te Huia) has been so continually insubordinate, rude and troublesome, that I considered

her conduct a bad example for the rest of the pupils. I sent for her guardian (Tauwhere) and told him of her conduct and advised him keeping her at home for the balance of the quarter. He agreed with me that it was best, to keep her at home until the return of the Head Teacher. She (Mary Te Huia) is the only child that I have found rude and insubordinate since being in charge.

Clara Lundon, 23 November 1903

Tapuaeharuru 1900–1902 (BAAA 1003/6d)

Am agreeably surprised at the aptitude and docility of these children. I did not expect them so good, seeing plenty of tourists. Corporal punishment will never as far as I can see be necessary.

H C Cummins, 6 December 1900

Gave Rangī 3 cuts on the hand for telling a small child to misbehave.

H C Cummins, 1 April 1901

...the playground has been cleared & picked clean by punishment work (which is light, but useful) likewise small patches of scrubbing and scouring have been given to those who needed a punishment. The best feature (or one of them) about Maoris is I think, the perfect good temper in which they take their punishment (if it can be called such).

H C Cummins, 7 June 1901

Te Kaha 1898–1902 (BAAA 1003/7b)

(Note – entries by teacher Mr Hailey hard to decipher)

Ngarnohu (?), Tatura Arui were guilty of drawing grossly immoral pictures on the slates (something) of the girls. I kept them after school and administered a severe punishment.

Mr Hailey, 22 March 1898

Had to punish Weipihuri Te Puriri for mischievously spilling ink upon the floor.

Mr Hailey, 18 April 1898

Corporal punishment has been so slight that I have not thought them (something); they have consisted of a tap with the (something). Punish-

ments have been inflicted but they have taken the character of 'detention' and 'exercise writing'.

Mr Hailey, 9 June 1899

I boxed Tinetu Hekara's ears this afternoon for impudence and open defiance. Tinetu is a big boy, but his conduct left me no alternative.

Mr Hailey, 5 July 1899

Had to punish Te Aru Peipeia for disobedience.

Mr Hailey, 20 September 1899

Had to severely punish Te Akau for throwing sand in the eyes of two girls. I have repeatedly warned the children of the danger to the eyesight from sand throwing.

Mr Hailey, 1 November 1899

Was compelled to punish (something) Te Puriri 3 strokes of the cane. Explained to the children (as a warning) why he was punished. (He is a sullen, rebellious little rascal, will not repeat lessons, and ended by running away).

Mr Hailey, 20 February 1900

Had to punish Harry Gardiner, W Kingi, Te Weha for throwing sand at each other. I gave them three strokes each, and 50 lines to write out, all except Te Weha who is too young.

Mr Hailey, 29 May 1900

In the interests of the other scholars I was compelled to administer the cane to Hipirini Mutehaero 4 strokes.

Mr Hailey, 11 September 1900

Have strictly forbidden children to talk Maori in school, without permission. Any infringement of this rule meets with detention and exercise writing during playtime.

Result less talking, and more attention to lessons.

Mr Hailey, 25 October 1900

Was compelled to give W Kingi 4 stripes of the cane. I had repeatedly cautioned him, but his conduct was so outrageous it left me no alternative. Had

I passed his conduct over I should have lost control over the school.

Mr Hailey, 14 February 1901

This morning, in the face of all the school, Te Akau distinctly refused to do what I told him. This is the result of interference of the Chairman. I waited two hours, dismissed the ppr and 1st standard, and gave an address to the 2nd, 3rd, 4th standard upon Te Akau's conduct, and finished up by giving him the regulation 4 strokes (laid in heavily) and an imposition of 100 lines. Previous to this the school was getting decidedly mutinous, the children being under the impression I was afraid to punish them. It has made a material difference in the conduct of the little rascals.

Mr Hailey, 11 March 1901

I had determined to do without corporal punishment, but a wave of profanity (something) necessitating its infliction. Reasoning, detention, and exercises, were of little avail, until two of the older boys received a 'hiding' then the bad language ceased.

Mr Hailey, 5 September 1901

Te Kerepehi 1902–1904 (BAAA 1003/7c)

I regret to have to record that I found it necessary today (for the first time) to administer slight corporal punishment to a boy, Rangi Hawira, for continual talking.

Mr Hope, 25 April 1902

I found it necessary today to punish a boy, Wiri Puhata, for repeated talking.

Mr Hope, 4 June 1902

A boy, Riki Whataiwi, today received corporal for talking and disobedience.

Mr Hope, 11 June 1902

I had to use corporal punishment today to a boy, Wiri Puhata for misbehaviour.

Mr Hope, 24 July 1902

I have just had to corporally punish two boys for telling falsehoods, Rauiera Rawiri and Jack Connor.

Mr Hope, 27 August 1902

I have just had to corporally punish a boy, Wiri Puhata, for repeated inattention.

Mr Hope, 19 September 1902

I regret to record that I have had to use the cane to five boys, Terere Pourewa, Tuatara Rawiri, Rangi Hawira, Rauiera Rawiri and Riki Whataiwi. The reason was that I sent word to them to do some tidying in the playground and they replied to the boy bearing the message that they would not do. I would not have adopted this form of punishment had not some of the parents frequently mentioned to me that the boys would not do as they asked and asked me not to spare the cane with them, their opinion being that a little more corporal punishment would do good.

Mr Hope, 1 October 1902

I find English a very difficult subject to the children. This is no doubt due to their having little opportunity of hearing English spoken outside of school, and what they do hear is mostly of an undesirable kind. I have tried to encourage as much as possible the talking of English only, in the school grounds, but at this early stage, it is not a rule that can be enforced.

Mr Hope, 27 November 1902

I have just had to punish a boy, Wiri Puhata, for telling a falsehood.

Mr Hope, 10 December 1902

I had to punish a boy today, Jack Connor, for persistent talking.

Mr Hope, 2 February 1903

I had to punish Rangi Hawira today for disobedience.

Mr Hope, 16 February 1903

I have just punished corporally Raniera Rawiri for misbehaviour, after having repeatedly had to speak to him.

Mr Hope, 21 August 1903

I have had to punish three boys for misbehaviour in school, Terere, Hunui and Rehi.

Mr Hope, 16 September 1903

I have punished 2 boys, Rawiri Wharengaro and Riki Whataiwi, for staying away from school on Friday against their parents' wishes.

Mr Hope, 28 September 1903

I have just punished two boys, Rawera Rawiri and Rauapia Ipu for misbehaviour.

Mr Hope, 30 October 1903

I have just corporally punished Hunui Horowhenua for misbehaviour and for persistently cleaning his slate after spelling corrections before the work is finally finished.

Mr Hope, 4 December 1903

Te One 1902–1903 (BAAA 1003/7g)

I had to give Witi Tiwi a thrashing for disgraceful conduct, such conduct consisting of deliberately and without any provocation spitting in the face of Bertie Tougeae.

H C Sigley, 21 March 1902

On Monday April 14th Gave Edwin Thompson strap for noisy, boisterous conduct. Had been previously cautioned.

H C Sigley, 18 April 1902

R Rua was punished with 4 stripes of strap (by request of his mother) for continual crying in school.

H C Sigley, 29 August 1902

Gave George Tuta Strap for laziness and carelessness over work. I have tried persuasion, kindly encouragement etc., and at last have resorted to corporal punishment, which I think will eventuate in better work from the boy.

H C Sigley, 31 October 1902

On Wednesday afternoon I gave Charlie Nikau 4 stripes with the strap. Miss Chatwin informed me that he had been a very troublesome boy all that day, while I had been teaching the upper classes in the old school.

H C Sigley, 9 January 1903

Te Pupuke 1902–1903 (BAAA 1003/5c)

(Note – log book for school in section two)

I detected one of the girls in the III st. copying her sums off another girl's slate, who knowingly afforded her the facility to do so. I had to punish for this which is rather uncommon fault in the school at present. I kept them in over an hour after school for arithmetic & other work. This is the severest punishment I could give.

M J Tennent, 14 May 1902

I had occasion to chastise Ngawati for taking five of the children's dinners to supplement his own. I gave him two cuts on each hand with the strap.

M J Tennent, 29 July 1902

The Committee met...Putete Heke wanted a change of teachers. The children should have more whipping. (In illustration of how well he can whip; his daughter comes to school with a black eye).

M J Tennent, 22 August 1902

Te Teko 1897–1901 (BAAA 1003/8f)

1902–1903 (BAAA 1003/8g)

1903–1904 (BAAA 1003/8h)

Having put in a week's work my opinion is that it will be quite impossible to get perfect order here (and before I get it nothing much can be accomplished) without a certain amount of knuckle rapping. I shall not hesitate to use this form of punishment liberally for a few weeks when I think it will be found necessary.

I never saw, or would have imagined such an unruly crowd inside a school. This punishment can not I think be classed with the corporal punishment that has to be noted in this log. It is hardly whipping or flogging. I do not see anything bad in the behaviour, only a want of attempt to hold themselves in.

H C Cummins, 7 February 1902

The course here pursued was the right one, but I think that 'corporal punishment' includes the whole family of 'knocks', 'raps', 'canes', 'strokes' etc.

Harry Kirk (inspector) in response to Cummins' entry of 7 February 1902

I think it would answer better to hit harder (& fewer times). I am going to stop habit of coming in 5 minutes late, particularly for afternoon school. Talking is of no use. This afternoon I beat 5 of the bigger ones. I promised the same for ever case of unpunctuality without a reason.

H C Cummins, 17 February 1902

Five children went right away at dinner hours – I sent after them and whacked the 3 big ones who were responsible (to tears) – the 2 little ones nominally.

I also beat Raugipai for swearing when playing, Mohi & Titirahi for continued talking in school.

H C Cummins, 14 March 1902

Gave Mohi the stick for disobedience.

H C Cummins, 20 March 1902

After a good deal of beating about the bush Apihai Temaua & Te Ua said they had heard that I beat the children on the head with the stick. They objected (naturally) to that. In the speeches that followed all stated their objection to my treatment, some under one head & some under another....

It is absurd to suppose I have ever hit a child on the head with a stick, & on being challenged to substantiate the (hearsay) statement all caved right in. The fact is that while a month or two back I was really severe (and I had to be) the children behave very well now and although I keep the rod in sight as a deterrent, it is very seldom (hardly ever) used.

H C Cummins, 5 April 1902

Gave Titirahi 2 (severe) strokes on hand for drawing something (obscene) on his slate.

H C Cummins, 8 April 1902

Mrs C complained of the behaviour of about a dozen of her children, instead of keeping them in I gave them each 1 or 2 strokes ranging from very mild to fairly hard: this in front of all. I had it translated to them all that I would deal severely with them if the mistress ever complained of them again to me.

H C Cummins, 16 April 1902

I gave Raugipai two cuts with strap for punching a smaller boy in Mrs C's room.

H C Cummins, 27 May 1902

Had to go into classroom. Mrs C complained that some of the children were behaving very badly and were almost beyond her power. I strapped the worst offender Raika 6 strokes on the hand, & told them all that in future anyone needing it would be sent into me for punishment.

H C Cummins, 4 June 1902

In looking through my Log I notice that the number of cuts given for different offences sometimes appears unequal; but I would like to point out that a 2 stroke punishment may be a great deal more severe than half a dozen on a different child and for a different offence: the number of strokes does not afford a guide to the severity of the punishment.

H C Cummins, 11 June 1902

One child had a fair excuse (for absence); the other 9 received a couple each with the strap – this was almost comical (not being entirely their fault) but it will serve to remind them what is in store should they repeat the offence.

H C Cummins, 2 July 1902

Punished Reuben for continued carelessness at drill & Rakataire for fooling in school (2 strokes).

H C Cummins, 9 July 1902

As regards punishment it has dwindled to the amount usually necessary in an ordinary well behaved school.

H C Cummins, 9 July 1902

Gave Mary Tuioti the strap for being absent last Friday without a pass or good excuse. She chose the punishment in preference to making the 4 hours she lost.

Am trying to do without the raps mentioned in the beginning of this book. I have an almost unapproachable model in the 'Daydreams of a Schoolmaster', kindly given me by the Inspector:— as a hint, possibly.

H C Cummins, 1 September 1902

No hint; merely hints of enthusiastic teacher for consideration of another.

Harry Kirk in response to Cummins' note of 1 September 1902

Paul was sent out of the classroom to me for a bit of a sly work – cheating.

I gave him the strap.

H C Cummins, 4 September 1902

Had to give Titia a good strapping for continued trifling.

H C Cummins, 29 September 1902

During the morning I strapped Titia, Hinepuke & Te Aute for disobedience in the way of chattering.

H C Cummins, 7 October 1902

I intend from now on to punish any trifling – in fact to be a little stricter and use the strap a bit more if necessary.

H C Cummins, 7 October 1902

Strapped Titia, Hinepuke, Magnus & Pakeliu in accordance with my last remarks.

H C Cummins, 8 October 1902

Strapped Titia & Hinepuke. I keep a defaulters list in view of all – any one whose name goes on it twice in one day comes to me after school for a strapping.

H C Cummins, 9 October 1902

Gave Moana a good whipping for punching one of the girls.

H C Cummins, 24 October 1902

Gave Iwingaro a good strapping for cheating – unpremeditated I think, and I don't think he will do it again.

H C Cummins, 13 November 1902

Gave Raugipai (a big boy) a good thrashing for disobedience.

H C Cummins, 19 November 1902

Titia, Hinepuke & Awohaere got the strap for continual playing & chattering.

Timothy C ditto for trying a little cheating in Arith.

H C Cummins, 3 December 1902

Awohaere, Titia, Eliza strapped as usual for making unnecessary noise, chattering & playing.

H C Cummins, 2 February 1903

Strapped Hinepuke, Titia & Eliza for continual playing.

H C Cummins, 16 February 1903

Two small children carried off a screw nut belonging to one of the desks some time this week – found out the offenders and as it appears they had thrown it into the river I made a public example of them (strapping them well in proportion to their size).

H C Cummins, 5 March 1903

Mrs C sent in Willy & Whiti to me for continual talking. I strapped them & threatened to give it to the whole of her class if they were not careful.

H C Cummins, 16 March 1903

Strapped Titia & Awohaere for misbehaviour. Tiki for rank disobedience after particular warning.

H C Cummins, 24 March 1903

Strapped Niao, Titirahi, & Tim (carelessness).

H C Cummins, 24 April 1903

Gave Titia, Eliza & Hinepuke (the usual three) a good strapping for everlasting chattering & playing.

H C Cummins, 21 May 1903

Tim Chase showing a bit of temper, got the ruler on the hand, and was sent down among the PPs – which caused copious tears.

H C Cummins, 9 June 1903

(note – this incident led to major controversy with Committee – Tim Chase's father was the Chairman, claimed blow caused a major swelling)

Gave Eliza the strap for whistling in school.

H C Cummins, 16 June 1903

Gave Titia 2 strokes of strap for persistent talking.

H C Cummins, 18 June 1903

Gave Titia the strap for making a noise.

H C Cummins, 23 June 1903

Gave Titia, Matehaere & Te Aute the strap for making a noise

H C Cummins, 25 June 1903

Strapped Titirahi (after warning) for carelessness.

H C Cummins, 26 June 1903

Gave Titia 2 strokes of strap for continual talking.

H C Cummins, 10 July 1903

I gave Iwuigaro his choice between a sound thrashing and working out the time he lost by his truancy. He is going to work it out.

H C Cummins, 28 August 1903

Mrs C gave Te Aute the strap for copying. Next time she will come to me. This is the first time since the examination that corporal punishment has been used!

H C Cummins, 31 August 1903

Got him playing football! (Wiri Kakare) It is necessary for me now to make an example of this boy because it is a case of direct disobedience – moreover it was the cause of another child truanting this morning. If I do not assert my authority now in the matter of passes I shall be frequently disobeyed and I am going to use the strap because keeping in is altogether too mild, and is not cared for at all.

H C Cummins, 22 September 1903

I gave Eruera good strapping on the posterior for copying in arithmetic. I don't think I have more than two or three cases in a year, though.

H C Cummins, 6 October 1903

Gave George & Moho strap for comparing work – arithmetic. Kept them working also during dinnerhour – they lunched in the porch.

H C Cummins, 3 November 1903

I gave him (Tim Chase) a strapping on the posterior for truancy & telling lies.

H C Cummins, 25 November 1903

Gave Hinepuke & Titia the strap for continuous misbehaviour in Mrs C's room.

H C Cummins, 18 February 1904

*Strapped Tuiutui Hinepuke & Titia for constant play & chatter (morning)
Punished Eruera and Rakataire this afternoon for extra carelessness in copy.*

H C Cummins, 30 March 1904

Gave Titia & Tuiutui a slight strapping; each for continuous chatter & play.

A gang who were late for school this morning are scrubbing the big room this afternoon.

H C Cummins, 19 May 1904

Gave Tuiutui strap for misbehaviour – without exception the worst boy in the school.

H C Cummins, 6 June 1904

Went right through the PP's with the strap on monitor reporting all to be unmanageable: (punished according to size, of course) gave Tuiutui an extra amount for punching another boy in the face.

H C Cummins, 10 June 1904

The Neck 1898–1899 (BAAA 1003/8j)

1899–1900 (BAAA 1003/8i)

1900–1903 (BAAA 1003/8k)

I was appraised this morning that something dirty had been written up at the back of the school. As others besides school children come here, it is not

absolutely proven that one (or others) of the pupils did it. However I had to punish the whole school.

Teacher, 29 January 1897

Punished Robert Waitiri.

Teacher, 28 July 1897

Punished Joseph Bragg for giving answer in Mental Arith. to a junior class. Pupils had been warned repeatedly not to do.

Teacher, 1 September 1897

Had to give Mark Joss the cane.

1. *He came an hour late to school.*

2. *" made Joseph King cry in the dinner-hour.*

3. *" yelled in the porch in an unseemly manner on school being let out.*

Teacher, 24 January 1898

Between one's duty to the Department, and his anxiety to improve the conduct of the children and the discipline of the school, and at the same time to keep on friendly terms with the parents, a teacher of a Native school has his work cut out.

Mr Thompson, 3 March 1899

Today matters with regard to Maria Fife came to a climax. Mrs Thompson spoke to her regarding her conduct and she answered back most insolently, so that I had to order her out of her seat. She refused to come and used most abusive language, necessitating me ordering her out of the school.

Mr Thompson, 22 June 1899

Matters connected with the general management of the school were discussed, but as most of the conversation was conducted in Maori I am not able to report.

Mr Thompson, 15 December 1899

I had an idea of attempting the revival of the ancient Maori art of carving among the natives here, and as an incentive to some of the boys in the fourth

standard, I made them a present last Christmas of a carving knife and a pair of compasses.

Mr Thompson, 28 May 1900

I had to give Josiah King a severe canning to-day for indecent behaviour in the school. He exposed his person to one of the girls and she complained to Mrs Thompson. I taxed him with it and he acknowledged the correctness of the charge.

Mr Thompson, 14 June 1900

After school opened this morning I called James Dawson out, and, after he acknowledged having used indecent language (which, from his manner he apparently saw no harm in). I spoke to him and the whole school of the enormity of the offence. To impress the lesson upon them all, as well as upon the culprit, I then gave him the soundest thrashing I have ever given; the tawse been the instrument of punishment. I exhausted myself, he returned to his seat with a smile on his face.

Mr Thompson, 3 March 1902

...George Tupi, who was sitting behind little Isaac Newton, in a fit of mischief clipped the latter's left ear with his scissors... I then called Tupi out. He refused to come and defied men to bring him. Nothing was left for me under the circumstances than to convince him, and the school, that my commands could not be defied with impunity. I accordingly dragged him out by main force and administered a severe thrashing to him with the tawse.

Mr Thompson, 21 July 1902

Tikitiki 1889–1901 (BAAA 1003/6j)

(No record of any punishments)

Waima 1903–1904 (BAAA 1003/9b)

I had to keep Horopoi Totoro in today as he is a very bad boy and I have much trouble with him' he will not leave at 3.30.

Mr R Thompson, 17 September 1903

The attendance has got very bad at this school since the Epidemic. I find now that the children tell me the most dreadful lies, one story to me another

to parents. They stay away gambling at cards. I must put this down with the cane.

Mr R Thompson, 1 December 1903

Waioweka 1893–1896 (BAAA 1003/9h)

Caned Kurei Neharoi yesterday – he played the truant. I have omitted to down each time I have used the cane. The children in this school have been accustomed to it & it takes some time before they can get along without it. I am not however an advocate of corporal punishment & very seldom have recourse to the cane now.

Mr Johnson, 20 February 1894

I brought the cane down over the shoulders of the boy who annoyed the Inspector at the last Exam & he has not returned to school.

Mr Johnson, 14 June 1894

Wairau 1895–1901 (BAAA 1003/9j)

I am sorry to state I was compelled to administer corporal punishment to Thomas Thomson a little boy for acting in an immodest manner to a little girl in the porch – also I gave Rahapa Reuben a bigger girl who encouraged the action this reflection to write out 40 times 'It was very wicked of me to tell a little child to do a bad act.'

Ellen Gibbs, 28 May 1896

The Teacher was compelled to use the cane to S Macdonald, for insolent behaviour in school today.

Ellen Gibbs, 29 August 1898

The teacher had to give Hakiaha Hohepa a whipping for immodest behaviour to a little girl.

Ellen Gibbs, 24 February 1899

The work of the school has been, and still is, very much hindered, through the preparations made by the Rev. Bennet, a Maori clergyman, for a Maori entertainment to obtain funds for the Maori Mission. The children in consequence are in such an excited state that they are quite unable to apply themselves to their lessons, often dropping asleep over their work, through want of rest overnight. I hear they are up till 12, and 1 o'clock at night con-

tinually practising the 'Haka' and 'Poi Game'. Sometimes they are kept from school also till 11 o'clock in the morning, while Mr Bennet is taking their photos in different Maori costumes. All this is very detrimental to the progress of the school.

Ellen Gibbs, 29 March 1899

The revival of the 'Haka' appears to be quite an evil in the Settlement, for it induces idleness, want of personal cleanliness, neglect of daily work, and other serious evils.

Ellen Gibbs, 2 July 1900

Sam Macdonald (a boy given to low language) when reprovved for coming to school late, spoke most insolently to his Teacher, upsetting the order of the school, and when told to stand in the porch, until he could behave properly, ran off home shouting outside the school buildings. The next morning, his father, a member of the committee, came with him using violent language to the teacher.

After some considerable resistance, Sam Macdonald upon the Teacher's forbidding him to take his place with the other children until he obeyed orders, remained in the porch until he was allowed to re-enter the schoolroom. Luke Stafford, the biggest boy in the school, following in the footsteps of Sam Macdonald behaved in the same insolent way, when reprovved for using disgusting words.

Both boys were made to write a task of 200 words (after school hours) on their slates, referring to obedience and respect to their Teacher.

I am sorry to have to record that this is not the first time these two boys have behaved insolently to their Teacher, their example before the younger children is most injurious at times.

Ellen Gibbs, 29 May 1901

The Teacher had to cane Tom Reeves for insubordination.

Ellen Gibbs, 21 June 1901

We find the children in all classes very backward. They seem to have very little interest in or understanding of their work. Arithmetic is especially bad. Children in Std 3 are not able to divide by 2. They are very slow at answering questions – some seeming to have no understanding of English.

Flossie Greaves:

Perhaps the greatest disappointment I have had since coming to Parapara was to realise that one of my senior pupils could be so base that her impertinent and unseemly behaviour resulted in her conditional expulsion from the school.

Her behaviour was examined by the Committee after which my action was thoroughly endorsed and a resolution passed to the effect that she thoroughly merited her punishment. – I am now awaiting an apology.

Mr Sheeran, 28 October 1930

There is little of importance to chronicle this week with the exception that my committee held a meeting to inquire into the behaviour of Mary Manuel and my treatment of her. She is a big girl a terrible liar and notorious thief. She had stolen my History book besides school property paper, pencils etc. She fought on the way home, used filthy language until such times that I realised this girl must be permanently checked and in the process be made an example to others. The usual two taps with a strap of course was just a joke with her so that reluctantly though I was I gave her four good cuts on the hands, several moderate cuts on the legs.

Mr Sheeran, 26 June 1931

Dick Wright is always in trouble. This week through disobeying orders he fell from a wire on a tree hurting his arm severely. This little bouncer is crammed full of mischief. Still I suppose boys will be boys.

J M Campbell, 26 October 1932

Billy Thompson used strong language & received strong punishment.

J M Campbell, 22 November 1932

After punishment had been administered to a Maori boy in Form I, he got sulky walked, walked out of school and was going home. I overtook him and after a bit of force to hold him and then a quiet talk he resumed his seat and work proceeded as usual. The children are realising they cannot do just as they like and this was the first serious breach.

L N Bradley, 24 February 1933

Mrs J Springhall called this morning and complained about John Thompson interfering with her daughter aged 4. After inquiring from different sources I learned that on Friday 22nd when John Thompson was absent from school he had been up to mischief – obscene exposure – and as he had not been reprimanded at home I strapped him soundly after giving all the boys a moral talk.

Maraeroa 1935–1941 (BAAA 1003/2f)

It is pleasing to record the success of our Picnic. The day was fine, the whole settlement was present and young and old enjoyed themselves.

The special feature of the day were the Pois & Hakas. This is the first occasion on which such competition has been held and it was the best and most popular item of the whole day. The event was won by Mr Nika Anderson's team and their exhibition was a splendid one.

Mr F McLaughlin, 26 March 1936

On Wed morning a large party of children accompanied by many parents left to take part in a Haka & Poi competition at the Whangarei School....The children taking part in the competition at Whangarei have to perform on Thursday & Friday. Consequently they have been absent since Tuesday. Personally I consider children's competitions away from home harmful to the physical and moral well-being of the young Maori. Such competition, if any should be confined to the School.

Mr F McLaughlin, 3 July 1936

I have had a great deal of trouble with one child Mary King (11 years 10 months). She has not taken a fair share of the responsibilities under our new scheme and has taken unfair advantage of the extra freedom allowed in such a manner that she has become objectionable. She refuses to do as she is told and in general has not proved a cooperative member of our Society.

After refusing today to sing and to do her oral work in Social Studies I punished her, giving her two strokes on the hands.

I gave two boys, David Peter and Rangi Savage, four strokes with the strap today, for making a rude drawing on a slate.

Hugh Goldsburg, 24 July 1933

An excellent program was put on and in spite of a wet night the concert was a great success. The items consisted of Maori songs, hakas & poi dances, with at the close a representation of the coming of the Maoris to New Zealand. Each item was worthy of an encore and this last one brought down the house.

Hugh Goldsburg, 6 November 1933

David Peter and Jack Savage played truant today from school yesterday... I gave them a good strapping, David more severely than Jack, and mean to write to the Maori policeman at Te Kaha asking him to keep an eye upon them during the holidays.

Whilst I lectured the class on such behaviour Marie walked out of school & ran along the road. She is a definite menace to the smaller children and

Naturally English has been spoken very little during the holidays and obviously this requires little imagination to realise the effect.
Mr Sheeran, 3 February 1933

Spoken English is much improved too. I take great pains to have good pronunciation. Daily sentence drill works wonders.
Mr Sheeran, 25 March 1933

Children generally are speaking much better when in the play ground. I have noticed a distinct difference also when in groups away from the environs of the school.
Mr Sheeran, 28 June 1933

I have started a wholehearted campaign against badly spoken English. I am encouraging the bigger ones to correct the faulty spoken word of the little ones. One hears in the play ground this is not dis, that is not dat etc.
Mr Sheeran, 29 June 1934

School work alas!...Bright enough perhaps, but there is little gain saying the fact they do forget – even speech slips. I suppose it is only natural that they will speak Maori when at home. There are exceptions.

Mr Sheeran, 8 February 1935

Oh yes: use of the strap is evident this week. This habit of late arrival is to cease. No note! Strap.

Mr Sheeran, 15 February 1935

Yes the use of the strap has most certainly brightened up punctuality in appearance at school. This coming simply has to cease.

Mr Sheeran, 22 February 1935

The children are making quite good progress with Maori action and poi songs and dances.

Mr Sheeran, 3 April 1936

Both the written and spoken word are much improved – I have been paying particular attention to play ground conversation.

Mr Sheeran, 24 April 1936

During the week I have given a great deal of attention to the spoken word. Oral description and conversational English has been the order – I have also kept a stricter supervision of the playground for there I have discovered a great deal of carelessness in the spoken word – sentences mutilated through what I am convinced is perfect laziness. Under supervision the language has been quite good.

Mr Sheeran, 23 April 1937

The spoken word too, I notice, has improved quite a deal since I have conducted a more rigid supervision of the play ground.

Mr Sheeran, 11 June 1937

I don't know why it is (careless laziness I suppose) children under supervision and restraint speak quite good English, but I have heard them in groups at a Maori hui when to say the least of it they are very careless. I have done my best to point out to them that they learn English to speak their best at all times. Of course this is not peculiar to Parapara for I hear some poorly spo-

ken English wherever I may be. Still I suppose one mustn't be discouraged for when all is said and done we have them for five hours only out of the 24.

Mr Sheeran, 9 July 1937

Oral expression in the standards is painfully weak and halting. Much time and a variety of approaches to this subject is the line taken. Children or some of them speak freely enough at the beach or bush but it is in one word sentences.

Mr Hunter, 21 February 1938

I have been today experimenting with Maori designs done with chalk on brown paper. ... I think the chn. will thoroughly enjoy this activity. We wonder if anyone else has done just this, for decorating a schoolroom before.

Mr Hunter, 14 April 1938

The chn. are enjoying the designs in chalk on brown paper. Arts & crafts could take another 4 or 5 hours a week if the chn's wishes alone were consulted.

Mr Hunter, 26 April 1938

To encourage & train thinking more accurately with the senior pupils we are to really isolate our difficulties, clarify them in accurate language. Solutions are to be suggested & tried, proved satisfactory or not...

*In this way, difficulties or little problems arising from activities are nurtured by T to foster careful & accurate thinking. This is, I conceive, the greatest benefit derived from practical activities... The chn. are to be encouraged to find the 'core' of difficulty, lay it orally before the class & search for solutions. This approach does not seem too convincing written down scrawpily here, but John Dewey thinks it the *sina qua* now of education & it certainly does put a finger right on the major weakness in thinking engendered by a 'heavy' control. More important yet, it indicates the vital educational value of 'Activity'.*

Mr Hunter, 27 March 1939

Rakaunui 1932–1940 (BAAA 1003/5h)

Punished Rangi Puhi – 6 strokes for particularly obscene language. Issued general warning.
