Ngā Kōrero Tuku Iho

Ngā Kōrero Tuku Iho, Week 1

On 30 March – 1 April 2016, the first Ngā Kōrero Tuku Iho hearing week was held at Winiata Marae, Taihape.

On day one (30 March) and three (1 April) kōrero tuku iho, including whakapapa, tikanga and waiata, was given before the Tribunal at Winiata Marae. Claimants appeared representing Ngāti Hinemanu me Ngāti Paki and visiting claimants represented Ngāti Tuope and Ngāti Kahungunu.

On day two (31 March) the claimants led the panel on a haerenga through the eastern part of the inquiry district, accompanied by members of Ngāti Hinemanu me Ngāti Paki and interested parties. Claimants gave kōrero related to the sites of significance during the journey.

Sites included Erewhon Station; sites along the Rangitikei River; Aorangī; Kuripapango; Pokopoko, the farm site where the tūpuna Winiata Te Whaaro lived for a time with his people; Te Mahau; Te Koutu; and Te

Flat Top Ridge, Taihape

Awehaehae. These sites are located within the Awarua, Aorangī, Te Koau, Kaweka, Owahaoko, and Mangaohane blocks.

At Pokopoko the panel and other guests were welcomed onto the farm site and kōrero was given about the eviction of Winiata Te Whaaro and his family from their home.

Staff extend thanks to the claimants for the manaakitanga expressed during our time at Winiata Marae for the first hearing week. The week went smoothly and was enjoyable for both the Tribunal and staff in attendance.

Ngā Kōrero Tuku Iho, Week 2

The second week of Ngā Kōrero Tuku Iho hearings will be held in Halcombe in the Manawatū region, slightly south of the inquiry district.

This second hearing week will be primarily dedicated to the kōrero of claimants with overlapping interests. A haerenga will also be arranged by both Ngāti Hinemanu me Ngāti Paki and members of the overlapping claimant groups. The timetable has been arranged by way of Northern, Central and Southern overlapping claimant groups.

Research Programme

In directions released earlier this year, the Tribunal granted an extension to the filing date of CFRT research to 20 May 2016. Staff are very pleased to announce that all research has been completed in the CFRT research programme. We extend thanks to the researchers who committed to this final deadline despite the minor delays. We also extend special thanks to Evald Subasic (CFRT Research Facilitator) and the staff at CFRT for overseeing the research programme to its conclusion.

The newest completed additions to the Taihape casebook are:

- 'Nineteenth Century Overview', Bruce Stirling
- 'The Impact of Environmental Change in the Taihape District, 1840-1970', David Armstrong
- 'Twentieth Century Overview', Tony Walzl
- 'Native Townships: Potaka (Utiku) and Turangarere', Heather Bassett & Richard Kay
- 'Ko Rangitikei te awa', Paul Meredith and Robert Joseph

There is now only one remaining report to be filed before the casebook is complete. Wānanga: Hearing Programme

During the first Ngā Kōrero Tuku Iho hearing week, a wānanga was held on 30 March at Winiata Marae. The wānanga was an opportunity for claimants and counsel to speak informally with Tribunal staff about the design of the hearing programme for the inquiry. At the conclusion of that first wānanga, attendees made it known to Tribunal staff that they would welcome another opportunity to wānanga about the programme. Claimants and counsel also took the opportunity to talk further amongst themselves and read through the material in the discussion paper distributed by staff.

On 28 April 2016 a second wānanga was arranged and held at Opaea Marae. Attendees proposed potential hearing programmes, and productive discussions took place amongst participants.

At the conclusion of this second wānanga, it was agreed that claimants would attempt to put together a joint-memorandum outlining a potential hearing programme for consideration by the Tribunal. Directions were released asking for this submission by **13 June 2016**.

For further information about hearing design process, please see the upcoming dates on **page 1** of this pānui.
